

Sportster Metro

Attain Celebrity Status Now— Mobility Never Looked this Good

Imagine a hot, up-to-the minute Personal Mobility Vehicle that turns heads, invites conversation and might even engender a little envy! The Sportster Metro from evRider lavishes you with a super comfortable ride, durability, reliability—and pizzazz!

Its top speed of 8 mph and range of up to 30 miles liberate this lean, “green” mobility machine to transport you on and off-road, up hills—just about anywhere you want to go. The Sportster Metro is small enough to go on a city bus and fit through doors of 36 inches or more. Its extra strong steel frame and stable wheelbase inspire your confidence—while its luxurious elegance inspires wistful looks, dreams of better days, and whistles!
